Subject: ELIS-SEIS Chapter 5 (Draft 3 submitted); Conf call today?
ELIS-SEIS - Chapt 5 (Draft2) v 102315 EPA comments track changes (LB Responses 28Oct15).docx

Hi Jeannie,

Please see attached the Responses to Draft 2 Comments. There were only a few comments in Sections 5-1 to 5-7. Edits in Section 5-8 (Preferred Alternative) were more extensive. However, all my edits were only editorial, not altering the content of the latest subsections written by USEPA. The main changes were as follows: The subsection that introduce the various Site Dimension Options was pulled up, as well as the subsection that discusses the exclusion of the bedrock areas. The content of these two subsections needs to be discussed first before a preferred alternative/option is selected (i.e., the ELDS). All edits are in Track-changes. Please feel free to review. In the meantime, I plan to include this version of Section 5-8 in the pdf file, unless you have comments before then.

I spoke with Jim O'Donnell. He plans to complete Appendices C-2 (Modeling) and C-3 (Sediment Transport) by next Monday.

Also, last week we agreed on talking on 4:00pm today. Do you plan to still have that call then, or a call at our regular time at 3:00pm? Please advise.

Thanks,

Bernward
